

NeuroRestorative Iowa offers a continuum of post-acute programs and community-based services for adults with brain injury and other neurological challenges.

Programs

We provide individualized, outcome-driven programs and support services to build participants' skills across functional areas.

We offer:

- Neurorehabilitation
- Neurobehavioral
- Supported Living

Services

Our services focus on **empowering participants** to live a healthy lifestyle and build real-world community and daily living skills so they may become more independent. We offer the following array of services based on the **needs and goals** of each program participant:

- Physical Therapy
- Occupational Therapy
- Case Management
- Medical Services Management
- Family Education & Training
- Speech-Language Pathology
- Vocational & Productive Activities
- Social & Recreational Activities
- Community Integration
- Fitness Equipment & Activities

The services listed may be offered by our staff and other professionals on site or in the community. NeuroRestorative also coordinates or assists participants in accessing additional services from other health professionals and local service providers as necessary.

“I thought I would always need help and would never be independent again. NeuroRestorative changed that.”

-Danny,
a person served by
NeuroRestorative

Locations & Settings

Our locations in Iowa City, DeWitt, Sioux City, Cedar Rapids and Ankeny offer quiet, rural residential settings. The homes boast amenities including private bedrooms, bathrooms, great rooms offering family-style dining and large-screen televisions, gym equipment, game rooms with billiard tables, screened-in porches, and beautiful decks overlooking spacious backyards ideal for gardening, barbecues and other recreational activities. All areas of the homes are completely accessible and designed to accommodate physical challenges. The home life safety enhancements include residential sprinkler systems and centrally monitored alarm systems.

The homes are conveniently located near restaurants, cafes, shops, churches and libraries, offering participants many opportunities to engage in community life.
