

Community Neurorehabilitation NeuroRestorative Maryland

4600 Powder Mill Road, Suite 150 Beltsville, MD 20705

Accessible to (I-495), I-95, Baltimore Washington Pkwy (MD-295) and Intercounty Connector (MD-200)

NeuroRestorative Maryland's Community Neurorehabilitation Program combines structured day treatment, vocational supports and individualized therapies to serve people with brain injury and other neurological challenges.

Location & Setting

Located in the community of Beltsville, our newly-constructed modern setting offers participants an inviting and comfortable environment. Our program includes dedicated areas for each participant's therapeutic and vocational needs. We are conveniently located adjacent to the Beltway and accessible to public transportation, allowing for easy access to a wide range of medical and community resources, including employers, hospitals and a range of social and recreational opportunities.

Day Treatment Program

Utilizing an integrated team approach, our day treatment program focuses on developing learning opportunities in settings that closely simulate the participant's home environment, both onsite in our facility and out in the community. This program can provide a viable alternative to prolonged hospitalization and can be a successful next step following acute hospitalization or post-acute inpatient rehabilitation.

We offer:

- A Person-Centered Approach
- Individual & Group Activities
- Cognitive & Social Skill Development
- Case Management
- Community Integration
- Support & Advocacy

Vocational Services

When an individual has a brain injury, it is not uncommon for them to experience certain challenges, such as concentration or memory issues, which may prevent them from being able to return to work. Our vocational services are designed to help people with brain injury acquire and retain job skills based on their individual interests, abilities and goals. We are pleased to partner with organizations within the community to help our participants find and maintain gainful employment.

We offer:

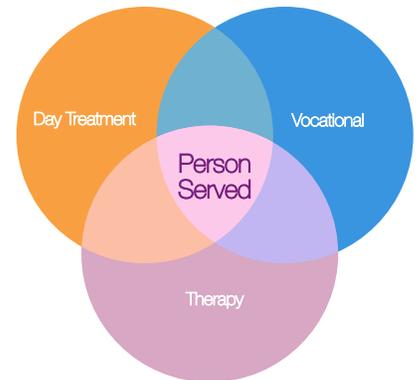

- Vocational Evaluations
- Pre-Vocational Training
- Career Development
- Job Placement
- Employer Education

Therapy

At NeuroRestorative Maryland, we provide our participants with individualized therapy and compassionate care. We offer the following therapies based on the needs and goals of each program participant:

- Physical Therapy
- Occupational Therapy
- Speech-Language Pathology
- Neuropsychology

A Person-Centered Approach

"Kathryn is finally getting the help she has needed for so long."

~Joan, mother of a person served by NeuroRestorative Maryland

We are pleased to partner with:

- Commercial payors
- State/federal funders
- Workers' compensation providers
- Private pay sources
