

NeuroRestorative Louisiana offers a continuum of post-acute programs and community-based services for adults with brain injury and other neurological challenges.

## Programs

Our experienced and caring staff provide individualized, outcome-driven programs in the most independent setting possible.

We offer:

- Supported Living
- Transitional Living
- Respite

## Services

We offer the following array of services based on the long-term needs and goals of each program participant:

- Case Management
- Life Skills Training
- Health & Wellness Services
- Exercise & Fitness Activities
- Nutritional Education
- Speech-Language Pathology
- Family Education & Training
- Community Integration
- Vocational & Productive Activities
- Recreational & Social Activities
- Physical Therapy
- Occupational Therapy

*The services listed may be offered by our staff and other professionals on site or in the community. NeuroRestorative also coordinates or assists participants in accessing additional services from other health professionals and local service providers as necessary.*

“The people at NeuroRestorative really understand her and the challenges that her brain injury has caused. It just feels like home.”

-Joan, the mother of a person served by NeuroRestorative

## Location & Setting

Nestled on a four-acre quiet, suburban setting in **Hammond**, our facility is designed for accessibility, **empowering participants** to enjoy its wonderful features including spacious bedrooms and living space, a modern kitchen, swimming pool and gardens. In addition, our **on-site apartments** offer participants an opportunity to continue their rehabilitation journey with **ongoing supports** in a less restrictive environment as they progress toward **independent living**.

The Hammond community, home to Southeast Louisiana University and just one hour from New Orleans and Baton Rouge, provides participants with many **opportunities for cultural and recreational activities**.
