

NeuroRestorative Massachusetts offers a continuum of post-acute programs and community-based services for adults with brain injury and other neurological challenges.

Programs

We provide individualized, outcome-driven programs and support services in the most independent setting possible.

We offer:

- Neurorehabilitation
- Neurobehavioral
- Supported Living
- Host Home
- Home and Community
- Respite

Services

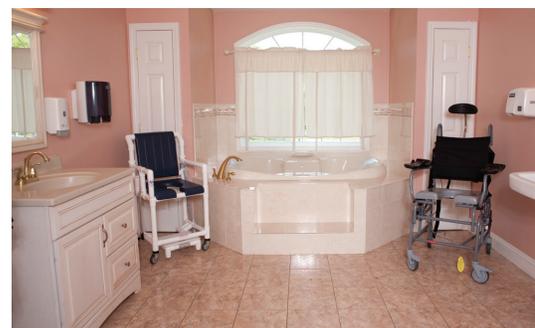

We offer the following array of services based on the needs and goals of each program participant:

- | | | |
|-------------------------------|-----------------------------------|--------------------------------------|
| • Physical Therapy | • Nursing | • Life Skills Therapy |
| • Speech-Language Pathology | • Physician Consultation | • Counseling |
| • Occupational Therapy | • Medical Care Coordination | • Community Integration |
| • Behavior Analysis & Therapy | • Neuropsychological Consultation | • Family Education & Training |
| • Medication Management | • Case Management | • Vocational & Productive Activities |
| | | • Recreational & Social Activities |

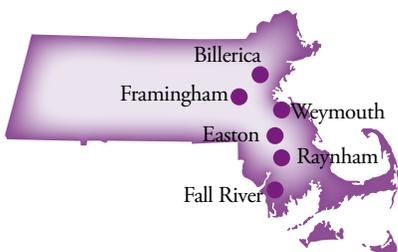

The services listed may be offered by our staff and other professionals on site or in the community. NeuroRestorative also coordinates or assists participants in accessing additional services from other health professionals and local service providers as necessary.

“At NeuroRestorative, Alan is supported and feels valued. He is where he needs to be in order to be as successful as he can be.”

-Brenda,
mother of a person served
by NeuroRestorative

Location & Setting

Our specialized residential programs located in Weymouth, Framingham, Easton, Raynham, Fall River and Billerica provide supported living services in fully accessible settings. Each location offers unique therapy opportunities on-site and in the community—providing an efficient and cost-effective alternative to hospitals, skilled nursing facilities and other traditional care settings.

In addition, we offer an exceptional Host Home shared living program located in the greater Boston area that provides participants the opportunity to successfully transition from facility-based services to life in the community.
